MONDAY, DECEMBER 13. 1736.

N^o 457.

Yesterday arrived a Mail from France.

Paris, December 8. O. S.

HEY write from Florence, by Letters of the 17th ult. O. S. that every thing is preparing for the Evacuation of Tuscany, and that they believed all Matters were settled between the Courts of Vienna and Madrid, the Duke de Montemar only waiting for the Return of the Courier that he sent back to Vienna for the security of the Tuscan Ports.

The last Letters from Luneville say, that a Courier from Vienna was arrived there with the Marriage Articles between the King of Sardinia and the eldest Princess of Lorain, and immediately set forward to bring in the News to this Court. We hear the Duke of Lorain gives 300,000 Livres as a Portion with his Sister, payable at three Terms, and that the King of Sardinia settles a Pension upon her of 200,000 Livres a Year for Pin-Money, and that he gives her 1000 Pistoles for Jewels.

The King of Poland will forthwith take Possession of the Province of Bar, as he will soon after of the Duchy of Lorain. France is to give the Duke of Lorain 4 Millions and Half of Livres; and the Duke's Dowager of Lorain is to have Commerce in sovereignty during her Life: And moreover France will allow her 600,000 Livres a Year for her Expenses. The Princess Charlotte is to have 40,000 Livres a Year till she is married, when the Prince of Bither is to give her a Portion, and to defray the Expence of the Marriage. When France enters into Possession of the said Duchies, she shall undertake to pay the Debts of the State of Lorain, the same to be deducted out of the Sums above-mentioned, in such manner that the Duke and Dutches of Lorain, shall have what is stipulated for them and their Children, if they happen to have any; and since Charles shall have the 2 Millions 600,000 Livres yielded to him out of the Government of the said lands, as an Amends for the Sacrifice he makes of his Dominions for the Emperor's Interest.

The young Dutches of Bourbon begins to be on the mending Hand. The King has made a Present to her by M. Orry, Comptroller General of the Finances, of a Sprig of Diamonds.

The said King has purchased the Duchy of Montauroux, of the Count de Clermont for three Millions, viz. a Million in Cash, a Million in Land, and another in Annuities.

This Duchy is included in that of Berry, and was added into a Duchy and Peerage by Lewis XIII. in 1616. The Town is large, with four Parishes, Collegiate Church, a fine Castle and a Park.

Naples, Nov. 14. O. S. The Death of Don Joseph de S. has thrown a great many of our Courtiers into Mourning, some of whom are already pointed out, who had no other Merit but his Favour, and whose Fall, some People seem so certain, that the respect paid to them formerly out of Policy, is now continued to them purely out of Kindness.

Hague, Dec. 7. O. S. His Excellency Mr. Horace Walpole no sooner arrived here from Hanover, but went to the Comedy to have the first Opportunity of waiting on the Princess of Orange, who was gone to see the Play of Misanthrope. He has conferred most every Day since he came, with the Secretary and the Deputies of the States General, in order as 'tis said, to communicate to the Republick certain Measures that have been concerted at Hanover, for securing to the Maritime Powers their Rights and Privileges, and the Influence they have hitherto had in the Affairs of Europe. A Person who came from this Country 10 other Day to Brussels, was seized there as soon as he alighted out of the Post chaise, and prohibited Books found upon him, which were seized. They write from that City, that M. de Quenonville, a Gentleman of Normandy, who has lived for some Years past and married a Lady there, is promoted by the Emperor to the dignity of a Viscount. And from Cologne, that a

married no less than 6 Wives, who are all living. Among other Persons who seem to stand fair, at least in the publick Voice, to succeed the late M. Slingeland, is M. Vanderheyne, Treasurer General of the United Provinces, a Gentleman of great Candor, indefatigable and zealous Application to Business, and a Master of Eloquence.

From the London Gazette.

Berlin, Dec. 11. N. S. The Russian Minister at this Court has received Orders to desire in his Mistress's Name, that his Prussian Majesty will send Directions to the Colonels or commanding Officers of his Regiments in Prussia, to take an exact Account of the Russians that are in their respective Corps, to the End, that such as have deserted out of the Muscovite Troops, during the late Troubles in Poland, or since, as well as those who have been seduced and brought out of the Russian Dominions without her Majesty's Permission, may be restored to such Officers as her Czarian Majesty shall appoint to receive them. The said Minister is moreover to represent, that the Czarina hopes the King of Prussia will be the more disposed to grant this her Request, as the Justice and Reasonableness of the Claim she lays to her own Subjects, cannot in the least be called in Question between Neighbours, Friends and Allies. The King of Prussia is expected in Town this Evening; the Queen and the rest of the Royal Family are already here.

The famous Original Specifick Injection, or Lotion,

Which in Twenty-one Years private Practice, hath cured 1231 Gonorrhoeas or Claps, (without taking any Medicine by the Mouth) and since September 1734 has cured 925 in the publick Way; and will prevent the Pox or Clap, as Thousands have experienced.

Those that use this Medicine, always know where to buy the Author.

It entirely destroys and carries off all Venereal Infection, because it reaches the Cause immediately, which no Medicines taken by the Mouth can do, and therefore prevents all the doleful Attendants of impure Indulgences. Sublata Causa tollitur Affectus. It is not only an Antidote against the Disease, but the Pelion of other Venereal Medics.

N. B. Reason and Experience first recommended it to the Publick; the great Satisfaction it gives, and the great Demand for it, convinces me more and more of its extraordinary Use. It also cures the Whites and Barrenness in Women, and Impotency in Men.

Ask for a Bottle of Wood's.

It is to be observed,

(For the Satisfaction of all Persons, who are fearful and doubtful of using any Publick Medicine) That there never was, nor will be, a good and honest Medicine published to the World, without finding Enemies, whose Interest it is, not only to decry and vilify, but also to counterfeit it; and the better the Medicine, the greater the Opposition: Therefore all doubtful People should have recourse to Experience; the infallible Attacher of Truth, without Prejudice or Partiality. Let them enquire of the Doctors of the Medicine, either where it is sold, but rather of those who have used it; and if they are informed the Effect answers the Intentions, let them freely use it, without enquiring what Malice, Interest, or Prejudice may suggest against it.

Letters Patent are obtaining, for preventing future impositions upon the Author and Patients.
